

Important: Throughout the spring and summer seasons, we do quote submissions on a first-come, first-served basis and work hard to do them right the first time. We believe in honoring our commitment to each customer who requests a quotation; therefore, we can not consider demands for immediate quotations. We will generally be able to turn quotations in about 24-36 hours. During peak season, we will require up to 3 days to do a quotation.

Our Terminology

3-Season Modular Walls

We typically define a 3-season room as one with single-pane windows and not intended to be heated or cooled permanently. Both the Alpha Plus and OMEGA systems can be built with single-pane glass windows.

4-Season Modular Walls

We typically define a 4-season room as one with at least double-pane windows and that can be cooled or heated on a permanent basis. Both the Alpha Plus and OMEGA systems can be built with double-pane glass windows. ONLY THE OMEGA sunroom system comes with the extra vinyl cladding on the extruded aluminum framing to provide that extra layer of thermal protection, making it the ultimate in 4-season comfort.

Please fill out all information from an
'outside looking in' perspective.

The following pages cover a number of typical existing roofline configurations. Each opening requires its own entry of width, two side heights, and door placement. (See below) **Leave all spaces blank that do not apply to your scenario.*

If your project is not represented on these pages, fill out as much as you can and then submit your own drawing indicating the number of openings that need to be filled, along with all measurements.

- (A) Start Height
- (B) Opening Width
- (C) End Height
- (D) Distance from wall/post to start of door

Modular Wall Dimensions

Left-Hand Side Projection

Fill in the measurements for **each opening** along the left-side projection.

The door placement measurement is moving left to right away from a wall or post.

*Always from an outside-looking-in perspective!

Wall Height (A):	Wall Width (B):	Wall Height (C):	Door Placement (D):
ft. in.	ft. in.	ft. in.	ft. in.
ft. in.	ft. in.	ft. in.	ft. in.
ft. in.	ft. in.	ft. in.	ft. in.

Right-Hand Side Projection

Fill in the measurements for **each opening** along the left-side projection.

The door placement measurement is moving right to left away from a wall or post.

*Always from an outside-looking-in perspective!

Wall Height (A):	Wall Width (B):	Wall Height (C):	Door Placement (D):
ft. in.	ft. in.	ft. in.	ft. in.
ft. in.	ft. in.	ft. in.	ft. in.
ft. in.	ft. in.	ft. in.	ft. in.

Modular Wall Dimensions (cont'd)

Front Wall Width

Fill in the measurements for **each opening** along the left-side projection.

The door placement measurement is moving left to right away from a wall or post.

*Always from an outside-looking-in perspective!

Wall Height (A): ft. in.	Wall Height (A): ft. in.	Wall Height (A): ft. in.	
Wall Width (B): ft. in.	Wall Width (B): ft. in.	Wall Width (B): ft. in.	
Wall Height (C): ft. in.	Wall Height (C): ft. in.	Wall Height (C): ft. in.	
Door Placement (D): ft. in.	Door Placement (D): ft. in.	Door Placement (D): ft. in.	

Modular Wall Details

Electrical Utility Mullion:

*This option allows for electrical boxes to be installed between modules. The standard H channel creates a 7/16" gap between panels. The EUM creates a 3 1/16" gap between panels. Consider the aesthetics along a single wall for this option.

How Many on Left-Hand side projection?		ALL ☐
How Many on Right-Hand side projection?		ALL ☐
How Many on Front Wall / Width?		ALL ☐

TuffCore Panel Color

*All 'non-glass' portions of your sunroom walls will have our patented TuffCore space-age vinyl finish on the inside and outside faces.

ALIGN WINDOW HEIGHTS WITH THE TOP OF
THE DOOR / HEADER HEIGHT

YES ☐ No, not necessary ☐

* All sliding windows come with fixed exterior screening.

Transoms (the area above windows & doors)

12" Glass ☐ 24" Glass ☐ Solid ☐

IMPORTANT: You will need a **MINIMUM 8'1"** tall front wall in order to put glass transoms above windows and doors

Kickplates (the area below the windows)

12" Glass ☐ 24" Glass ☐ Solid ☐

Your initial quotation will contain not only a summary of your Sunroom materials and construction, but a line drawing of what your project might look like based on your choices in these pages.

This will include a selection of window sizes in keeping with your desired wall sizes and door placements.

The description and drawing given in your quotation are simply a starting point toward finalizing what your finished project will look like.
